BOARD OF DIRECTORS
REGULAR MEETING
Tuesday, March 24, 2026
Draft

PRESENT: Samantha Hinrichs, Chair; Bruce Boyd, Vice-Chair; Rhea Williamson, Treasurer; Tim Tschantz

ABSENT:; Pam Morey

STAFF PRESENT: Chief Mike Stewart; Deputy Chief Tom Browning; Lynn McGarva, Finance and Facilities Manager

1. **CALL TO ORDER:** The meeting was called to order at 6:00 PM by Chair Samantha Hinrichs. Roll was taken. A quorum was established.
   The Pledge of Allegiance was recited.

2. **APPROVAL OF March 24, 2026, REGULAR BOARD MEETING AGENDA**
   Bruce Boyd moved to approve the agenda for March 24, 2026, as written, Rhea Williamson seconded, motion carried 4-0-0-1.

3. **PUBLIC COMMENT:**
   Cole Nichols, a contractor for a fire protection district from the coast, recently moved to the area and wanted to introduce himself and learn about the NSJFPD.

4. **MINUTES:**
   A. **Draft Minutes of February 24, 2026**
      Rhea Williamson moved to adopt the February 24th Draft Minutes as presented, Samantha Hinrichs seconded, motion carried 4-0-0-1.

5. **ANNOUNCEMENTS:**
   Tim Tschantz announced that he will not be seeking re-election when his term is up at the end of 2026.

   Rhea Williamson announced that the San Juan Ridge Taxpayers Association will be having a meeting on *May 4th at 5:30, on Ridge Fire Wise Communities. Bruce Boyd and Chief Mike Stewart will be speaking at the meeting. Additionally, Rhea is researching various grant opportunities to fund additional water storage in the District, this will be discussed further in item 7.C. Lastly, Rhea inquired if the upcoming Ethics Training will meet SB 827.

   *Date was provided via email after the meeting.

6. **REPORTS**

A. **Board Chair Report – Samantha Hinrichs**

Samantha Hinrichs wanted to commend the firefighters for their great work on a recent domestic violence call in her neighborhood.

i. **Correspondence-** None

ii. **Appointment of Public Member on Finance Committee**

Samantha Hinrichs introduced Jennifer Rain as the potential new public member on the Finance Committee. The next Finance Committee meeting will be April 16th at 10:00 at Firehouse 3.

Bruce Boyd moved to appoint Jennifer Rain as the Public Member to the Finance Committee, Rhea Williamson seconded, motion carried 4-0-0-1.

B. **Chief's Report – Fire Chief Mike Stewart**

i. **February 2026 Statistics:**

Chief Mike Stewart provided a summary of the February 2026 Statistics.

ii. **Current Department Activity:**

- NSJ Firefighters helped burn piles at the North Columbia Schoolhouse Cultural Center.
- Chief Stewart will be getting a new shoulder on May 6th. Does not anticipate much disruption to his position.

Samantha Hinrichs asked if there is any water safety training scheduled for Grizzly Hill School. Tom Browning responded that he would love to help coordinate that training but had not been contacted by the school yet.

Rhea Williamson asked about how public education is going. Tom Browning responded that Angela Flores oversees public education and her priorities have been the annual Open House. Currently, Tom is not aware of any planned events. Rhea asked to ensure all public education is thoroughly communicated to the Board and the community at large to ensure a good turnout. Tom Browning shared that he would reach out to the Public Education team (Sasha St. John from the Auxiliary, Sambhava Burke from the Firefighters Association, and Angela Flores) to see if there are any updates.

iii. **Paid Bereavement Pay**

Chief Mike Stewart shared that the Personnel Committee met and is suggesting the Board consider adjusting the District Managers contracts to include two weeks of paid bereavement pay in the event of the death of an immediate family member.

Bruce Boyd moved to approve two weeks of bereavement pay for the two District Managers as well as the Fire Chief, Rhea Williamson seconded, motion carries 4-0-0-1.

C. **Treasurer's Report – Presented by Rhea Williamson**

i. **Financials- February 2026: Funds Summary, Disbursement Detail, Deposit Detail, Cal Card**

Rhea Williamson presented February 2026, financial reports.

Rhea Williamson moved to approve the financial reports for February 2026, Pam Morey seconded, motion carried 4-0-0-1.

D. **Firefighters Association Report – Sambhava Burke**
Sambhava Burke was unable to attend but he relayed that he has nothing to add.

E. **NCFA Report – Bruce Boyd**
Nothing to report.

F. **Auxiliary Report – Sasha St. John**
The Auxiliary is currently busy working on the Scotch Broom Breakfast.

7. **OLD BUSINESS**

A. **Hydrant Committee Update – Deputy Chief Tom Browning**
Deputy Chief Browning shared that the funding process is going in the right direction with the goal of 2027 for breaking ground.

B. **Capital Improvement- Bruce Boyd**
Drawings for the addition have been approved by the County. The District will need to pay for the building fees. The next step is sending out the Request For Bid, of which Bruce is currently finalizing. Tom Browning asked to have the entire station painted when the addition is completed.

Bruce Boyd is also working on drawings to replace Firehouse 1.

Additionally, Bruce shared that plans have been prepared to have the parking lot paved. The plans include 17 parking spots, with the possibility of 4 or 5 more.

i. **Apparatus Committee Development**
Mike Stewart shared that the next goal with the District's Apparatus Replacement Plan is to have Rescue 6132 replaced. Mike would like the Board to approve establishing a committee to develop the specs for Rescue 6132's replacement. Bruce Boyd noted that the Chair can authorize establishing a committee. Samantha Hinrichs authorized Chief Stewart to establish an Apparatus Committee to develop the specs for replacing Rescue 6132.

C. **Water Storage Committee- Rhea Williamson**
Rhea Williamson shared that the Committee (Rhea Williamson, Bruce Boyd, and Chief Mike Stewart) met on March 9th. The Committee reviewed site selection criteria that were prepared while selecting previous sites. The Committee is considering a site, based on need, at Sumi Road and Jackass Flats. This site will need agreement and commitment from the affected Fire Wise Community and property owners. Another potential location would be at Sages Road and Prophets Way. The Committee determined that the District has the funds to install a new storage system this year but will continue to search for grant opportunities.

8. **NEW BUSINESS**

A. **SB 827- Deputy Chief Tom Browning**
Deputy Chief Tom Browning asked the Board to create a subcommittee to further examine SB 827. Sam Hinrichs, Chief Stewart, Heidi Ryan and Rhea Williamson (maybe) will meet to discuss further and make recommendations to the Board regarding updating our Conflict-of-Interest Policy accordingly.

B. **Salary Increase- Lynn McGarva, Finance and Facilities Manager – Tim Tschantz**
Bruce Boyd shared that the Personnel Committee met to discuss a potential salary increase for Lynn McGarva. Lynn is currently outside of our Merit Step Schedule, so the Personnel Committee recommends the Board approve a 3% cost of living increase as well as a 2% raise, for a total increase of 5%. Deputy Chief Browning also suggested including 2 weeks paid vacation for Lynn.

Bruce Boyd moved to approve a 5% raise and two weeks paid vacation for Lynn McGarva, Finance and Facilities Manager, Tim Tschantz seconded, motion carries 4-0-0-1.

C. **Second Reading- Section 2302.1 Authorized Signatories and Section 2102.4 Drug-Free Workplace- Fire Chief Mike Stewart**
No Changes requested.

Bruce Boyd moved to adopt the policies as presented, Rhea Williamson seconded, motion carried by the following roll call vote:

Rhea Williamson	Aye
Tim Tschantz	Aye
Bruce Boyd	Aye
Samantha Hinrichs	Aye
Pam Morey	Absent

Ayes: 4 Noes: 0 Abstain: 0 Absent: 1

D. **2026 Board Goals – Samantha Hinrichs**
Samantha Hinrichs- Complete a newsletter and ensure the newsletter is prepared consistently, public education.
Bruce Boyd- Complete a preliminary design for station 1.
Rhea Williamson- Continue to promote and enhance water storage throughout the District.
Tim Tschantz- Attend all meetings until term is up.
Pam Morey- Absent.

9. **NEXT MEETING:** Monday April 27, 2026, at 6:00 PM
10. **10. ADJOURNMENT:** Meeting adjourned at 7:23 PM

Heidi Ryan

North San Juan, California 95960

Dear Sam, Bruce, Rhea, Pam and Tim,

When Heidi phoned for my new address, I assumed that she had found something of Ed's. I was quite surprised and delighted to receive a resolution in my honor.

When we moved to North San Juan, it was my great fortune to become involved with NSJ Fire. Not only did I meet wonderful people (and a few stinkers) and learn a great deal, but I was also given the opportunity to give back to my community and to make a difference. This resolution is especially meaningful to me as it comes from an organization that is very dear to my heart. Thank you.

Sincerely,

Sharon

Presentation on
Proposed Cell Tower
in North San Juan

Ridge Wise For Safe Cellular
Addressing Serious Concerns Regarding the Installation of Cell Telecommunication Towers and Small Cells Facilities on the San Juan Ridge

Thank you for letting us be here today. We represent people here in our community who are concerned about dangers posed by large cell telecommunication towers and small cell facilities. We wish to express our specific concerns for the safety of our community and first responders and to present you with questions we feel should be considered thoroughly without delay. There is a strong push to establish large cell towers and small cells throughout our communities. Currently there are two large tower applications for Verizon towers on the San Juan Ridge. These types of towers have experienced electrical failures, ignition in their battery banks, they burn toxic and are difficult to extinguish and interfere with helicopter navigation equipment. We are concerned that these towers present financial and safety risks that our community is underprepared for. We see serious potential of harm to our fire fighters, residents, homes and wildlife and that in the incident of a tower fire, we could find ourselves in a dire situation unless we get educated, intentional and properly prepared.

Nevada County Planning Commission recently completed a review and revision of its ordinance covering installation and monitoring of operational telecommunication devices. On April 14, 2026 The Nevada County Board of Supervisors approved Section 12.03.080, the Communication Towers and Facilities Ordinance with two amendments ; grandfathering in existing tower applications (including two San Juan Ridge Tower Applications) under the old permitting process and slightly strengthening some fire safety language. The old ordinance grandfathering in towers applications is 20 years outdated and the new ordinance still does not adequately address the safety and preparedness concerns for firefighters or residents. The two tower applications currently in with the planning department are:

1. A 95 foot Mono Pine Tower located at the Willow Springs Lodge Campground property site at 28953 HWY 49 Nevada City 95959.
2. 150 ft Tower on Purdon Road across from Miller Road at 22044 Purdon Rd, Nevada City 95959.

We can be certain that more tower applications are to come. We are not against cell towers. We recognize the need for cell service in our community but we want to advocate for safe, intentional locations and proper levels or preparedness for our community and first responders.

Local ordinances just adopted have intentional omissions by the Planning Department and Board of Supervisors without language recommending or requiring a conditional use permit for new Small Cell Wireless Facility installations. This leaves them exempt from discretionary planning review. A small cell wireless facility is defined as less than 28 cubic feet of equipment, may be mounted on new or existing structures 50 feet high or less and may include antenna as large as 3 cubic feet in size. They also pose fire hazards. No public input or notification of their placement is required. Fire departments do not need to be made aware of their locations leaving them at risk of unknown exposure to toxic chemicals or unprepared for safety requirements in advance of responding to a fire. We believe cell towers should be required by code to adhere to federal, state and local fire, building, electrical and structural codes with review by a registered electrical engineer. Code should also require regular scheduled safety testing and have regular tower and grounds maintenance schedules. Not requiring code compliance puts everyone at risk and we feel our firefighters should be made aware of this. Fire departments should be given a Material Safety Data Sheet (or MSD) for each tower or small cell with information detailing all materials used and how to safely fight said tower in the event of a fire.

We also believe that fire stations should be provided with instructions to safely turn power off any tower or cell in case of electrical issues or an encroaching fire within each district.

Dan Collins, of CDF and who is employed by the county to review fire safety for the planning department, asserted that the public needn't be concerned about fire safety in regards to a proposed 5g tower because protecting the tower from a fire would be a first priority and that there would be equipment and personnel on site for that purpose. One need only look at the loss of towers in the recent Chico fire to understand that there are no guarantees that in all incidents that towers can be saved. When queried by us about his awareness of fires caused by telecommunication system failures he refused to discuss the topic saying only that " it has never happened in this county." He also assured us that each tower would have a "drop down line and shut off on a post." However, the new ordinance says nothing about this being a requirement. Assurances are not guarantees.

There have been multiple documented telecommunications structure failures statewide resulting in tower collapses and tower fires. Telecommunication equipment failures on towers have been the cause of devastating fires in California. Three examples are the Malibu Canyon fire in 2007, the Silverado Canyon fire in 2020 and The Woolsey fire in 2018. The Woolsey fire was one of the most destructive. The official California Public Utilities Commission/Cal Fire investigation of the incident determined that " electrical equipment associated with the Big Rock 16 KV circuit, owned and operated by Southern California Edison was the cause of the Woolsey Fire." The study noted that 96,949 acres were burned, 1634 structures lost and 3 fatalities. 24 PUC code violations were cited in the investigation against the telecommunications company.
https:www.cpuc.ca.gov>Investigationreportofthewoolseyfire .

5g telecommunications systems use lithium-ion batteries in their operation. In the event of a lithium-ion battery fire they present special challenges for firefighters and other first responders.

1. In order to fight a 5g telecommunications structure fire emergency shut down procedures must be followed. Fire departments need to have the locations and emergency shutdown procedures available for each tower and Small Cell Wireless Facility.
2. There is a risk of toxic chemical exposure during firefighting operations. Proper personal protective gear needs to be worn including self-contained breathing apparatus.
3. Fires involving Lithium-ion batteries require strategic cooling methods. There is a risk of re-ignition after extinguishing a lithium-ion battery fire. Post fire assessment (including toxicity assessments) and monitoring (hours committed to mop up) are important.

This and additional information can be found at https://www.usfa.fema.gov/a-z/lithium-ion-batteries/risks-and-response-strategies/

More Considerations About the Impact of Cell Towers in Our Community:

Is the NSJ Fire Department adequately prepared for the occasion for a cell fire?
What does it take to put out a cell fire? Does our fire department have adequate safety and firefighting equipment? The lithium batteries and other hazardous materials in these batteries are dangerous when burning. Do you receive special training for a lithium battery fire? Who pays for this training? Will the NSJ Fire Department be provided with a Material Safety Data Sheet (MSD) from the telecommunications companies so that you know what a particular tower is built of to take necessary precautions in the event of a fire? Who is responsible for cell towers in the event of a cell

tower fire Cal Fire or our Volunteer Firefighters? We would like to know proper education and preparations have been put in place BEFORE any towers go up in our communities where the event of one of these fires could possibly take place.

How much water does it take to extinguish a cell fire?
The International Association of Fire and Rescue Services (CTIF) stated in 2022 that a tesla car battery (a comparable example for this conversation) caught fire in a parking lot took 14 firefighters, 2 engines, a truck company and 24,000 gallons of water to extinguish the fire. The car battery in this instance wasn't fully involved however and they estimate that a fully involved battery pack could potentially take twice as much water to extinguish. It is said that teslas take 40 times more water than a regular fuel engine fire. Preliminary research indicates that on average it takes about 30,000 gallons to extinguish a cell tower fire where a lithium-ion battery backup system is involved.

Where is the water to fight such fires coming from and at what cost to the community? 5G towers emit frequency that interferes with helicopter navigation equipment, making it unlikely a helicopter could fight a fire with buckets from our local bodies of water. We imagine this means that engines would be assigned to cell towers and where will they get water from? Further research states that some newer towers include hydrogen fuel cells which pose many risks and will need its own approach. Who can decommission towers when necessary? PGE? Verizon? The Fire Departments? What is the response time? In the event of a fire encroaching upon a cell phone tower, would protecting the tower be prioritized over protecting homes? How much of the resources needed to protect homes would be allocated to protecting a cell tower?

Interference between 5G towers & Helicopter Navigation:

Another issue of great concern is that 5G towers can interfere with helicopter radio altimeters causing navigation errors, operational difficulties and sometimes baring helicopters from landing at a helipad located near a 5G tower. Frequencies emitted by these towers have caused interference with vital instruments inaccurate or missing altitude data, disrupting critical low-altitude and bad-weather landings. Pilots have reported instances where altimeters became erratic or displayed incorrect altitudes when operating near 5G cell towers. The frequency emitted by 5G towers is said to particularly interfere with nighttime navigation equipment making night landing difficult and dangerous, to the level that critical medical flights have been redirected. The tower application for Willow Springs would bring the tower within the risk zone.

Key Aspects of 5G/Helicopter Interference:

- Mechanism of Interference: Radio altimeters measure height by sending a signal to the ground and timing its return. 5G signals can overwhelm this sensitive equipment, creating "noise" or spoofing data, leading to faulty readings. (VerticalAvi.org)

- Impact on Navigation: The resulting inaccurate altitude information can affect safety systems like the Automatic Flight Control System (AFCS) and terrain awareness systems, which are crucial for helicopter safety especially in our rural location. (VerticalAvi.org)

- Safety Risks: The interference poses the highest risk during landing, particularly in low-visibility conditions (instrument meteorological conditions) where pilots rely solely on instruments to determine their height above ground. (VerticalAvi.org)

- Helicopters, such as medical air ambulances/Life Flights, firehawks or helitacks frequently operate at lower altitudes, at night and land in unpredictable and low lit terrain like when landing at our Station 1 Helipad. (VerticalAvi.org)

- Forced Flight Plan Changes: Due to safety alerts (NOTAMs), pilots have had to avoid specific flight paths or change landing sites to ensure safety, increasing flight times when transporting patients. (Science Direct)

- Disruption in Rural/Low-Visibility Landings: Helicopter Air Ambulances frequently fly low and operate outside traditional airports. 5G signals interfere with, or force them to disable, radio altimeters, making landings at scene accidents or hospital pads in fog or at night extremely difficult. (sciencedirect.com)

Communications companies are making it the responsibility of the FAA to change their equipment to filter out 5G interference. This is costly and will take time to implement. In the meantime, helicopters using our Station 1 helipad could be put in danger or simply unable to make life-saving landings here. Additionally, our firefighters may not be able to use our helipad for operations.

The greatest level of interference appears to be within a 1/2 mile radius of a 5G tower. The Willow Springs tower is roughly 2,300 feet from the helicopter pad, under a half mile. Additionally it would be located to the South West of the Helipad which is the direction from which most life-flights and airport traffic will be flying in from and the direction they will most likely head with medevac. This would mean the helicopter would be landing and taking off within the high risk zone surrounded by many homes putting the pilot, crew, operation and community at increased risk of operational errors. We recommend a safe buffer zone around the Station 1 Helicopter Pad be enforced for low flying helicopters in their flight path as well as landing area. Even when adjustments are made for 5G, they are already talking about adding 6G in the 2030's. What type of interference will 6G cause to helicopter navigation systems? Communications companies are going forward with development, expecting the FAA to adjust to their technologies. This is what they have done with 5G. If we have towers within the interference range when running on 5G, what new problems and costs could 6G bring?

We understand that there are plans in the works to improve on and develop the existing helipad at station 1. This is great! Our community relies on the existence of this helipad for emergency life flights and firefighting efforts. This is why understanding the impact of a 5G tower so near station 1 is so vital, we need to keep towers at a safe distance from any current or planned operations for this hilipad.

Cellular Towers & Property Values, the Implications to Local Fire Stations:

Another concern for our fire station is that proximity to cell towers is consistently showing long-term decrease in property values for nearby parcels by as much at 30%. Lowered property value equals lower property taxes, which will decrease the important funding our fire district receives. This is

magnified when towers are located in more densely populated areas with more parcels like the North San Juan Willing Springs location and the Purdon Neighborhood location.

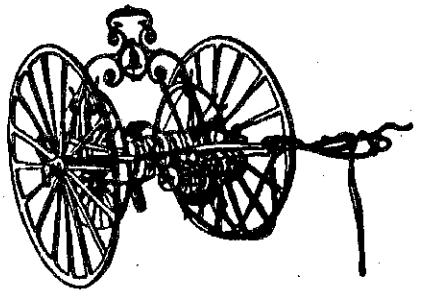
Studies find that:

- Surveyors concisely show that around 90-94 of homebuyers are less likely to buy or pay as much for a property located near a tower often siding aesthetic concerns and in some cases health concerns. (National Association for REALTORS)
- Cell towers frequently reduce nearby residential property values, with studies showing a 10% to 20% decrease in value. Visible towers can cause 94% of buyers to offer less or avoid the property, often resulting in a 2%–30% drop in home value. (Environmental Health Science)
- Market Stigma: Many buyers avoid homes near towers due to aesthetic blight and health concerns, leading to longer selling times and lower prices. (Environmental Health Science)
- Long-Term Effect: Studies indicate that the devaluation is often permanent. (Environmental Health Science)

8.B

Updated Employment Contract
Finance and Facilities Manager

EMPLOYEE COPY



NORTH SAN JUAN
FIRE PROTECTION DISTRICT

AMENDED FINANCE AND FACILITIES MANAGER EMPLOYEE AGREEMENT

This Employment Agreement ("Agreement") is made effective as of April 1, 2026 by and between North San Juan Fire Protection District ("Employer") and Rhoda Lynn McGarva ("Employee") who shall collectively be known herein as "the Parties".

RECITALS:

The parties agree as follows:

EMPLOYMENT

Employer shall employ Employee as Finance and Facilities Manager as defined in Board Policy 1301.3 with principal duties as described in Board Policy 1605.3, see Attachment A. Employee accepts and agrees to such employment, subject to the general supervision, advice, and direction of Employer and the Employer's supervisory personnel. Employee shall also perform such other duties as are customarily performed by an employee in a similar position, and such other and unrelated services and duties as may be assigned to Employee from time to time by Employer. Employee is hired on a part-time basis for 15-20 hours per week on average over each month.

TERM

Employee's employment under this Agreement shall be for an unspecified term on an "at-will" basis, meaning that Employer or Employee can terminate the employment relationship for any reason, with or without good cause or reason. Advanced notification of termination by either party shall be in writing with at least ten business days notice given to the other party. In the event Employer terminates this employment without good cause, Employer shall pay Employee two weeks' compensation (30 hours).

COMPENSATION

As compensation for the services provided by Employee under this Agreement, Employer will pay Employee an hourly rate as negotiated periodically between the Employer and the Employee and subject to Board policy and the salary schedule. Payment will be made in accordance with Employer's usual payroll procedures.

PAID TIME OFF (PTO)

Employee is eligible for Bereavement Pay not to exceed 40 hours following the death of an immediate family member (parent, child, sibling, partner), to be used within one year of time of death.

Employee is eligible for Vacation Pay in the amount of 40 hours during their employment year. Employee's employment year begins on their start date. Vacation Pay does not carry over from year to year and cannot be cashed out upon Employee's termination/resignation.

REIMBURSEMENT FOR EXPENSES

Employee shall be reimbursed for ordinary business expenses, travel, training, and mileage at the approved reimbursement rate.

CONFIDENTIALITY

The Finance and Facilities Manager is a confidential position with access to all District business, files, data, correspondence, and personnel information. Employee shall be subject to state laws governing confidentiality and shall exercise discretion and good sense in handling the District's affairs so as to maintain confidentiality.

COMPLIANCE WITH EMPLOYER'S RULES

Employee agrees to comply with all of the rules and regulations of Employer as stated in the Districts Organizational Manual.

ENTIRE AGREEMENT

This Agreement contains the entire agreement of the parties and there are no other promises or conditions in any other agreement, oral or written. This agreement supersedes any prior written agreement between the parties.

AMENDMENT

This Agreement may be modified or amended if the amendment is made in writing and is signed by both Employee and Employer. No officer or employee has any power to modify or amend this Agreement in any other way.

SEVERABILITY

If any provision of this Agreement is ruled to be invalid or unenforceable for any reason, the remaining provisions shall continue to be valid and enforceable. If a court finds that any provision of the Agreement is invalid or unenforceable, but that by limiting each provision it would become valid or enforceable, then such provision shall be deemed to be written, construed, and enforced as solicited.

EMPLOYEE COPY

ATTORNEY FEES

If any legal action based in contract law is necessary to enforce or interpret the terms of this agreement, the prevailing party shall be entitled to reasonable attorney's fees, costs, and necessary disbursements in addition to any other relief to which that party may be entitled. This provision shall be construed as applicable to the entire Agreement.

MODIFICATIONS

This Agreement may be modified, superseded or voided only if written, approved and signed by both Employee and Employer.

EFFECT OF WAIVER

The failure of either party to insist on strict compliance with any of the terms, covenants, or conditions of this Agreement by the other party shall not be deemed a waiver of that term, covenant, or condition, nor shall any waiver or relinquishment of any right or power at any one time or times be deemed a waiver or relinquishment of that right or power for all or any other times.

APPLICABLE LAW

This agreement shall be governed by the laws of the State of California.
